

Please do not pass this resolution. We cannot afford the information loss due to allowing only a few to own/control our media. It is unconscionable in these United States to not promote the freedom of information that we so dearly need. Even in the past few months my wife and I have had to rely on foreign news to get a balance idea of our involvement in the middle east. Whereas, those of our friends that have not accessed these alternative news sources, that is, they only have been reading the local newspaper and hearing the local TV news, they have very conservative views.....and of course they do. We need to have a greater diversity of media.....again, please do not allow fewer media to be able to own more of the media stations.....whether it be radio or television.....thank you!
